The school election today promises to be both interesting and exciting. There are three candidates in the field to fill the vacancy on the school board caused by the retirement of Mr. Thomas Bayze, whose term has expired. The following persons are candidates for the responsible position: Mrs. I. Burgoon, Dr. A. L. Gustetter and Mr. Thomas Bayze. Each candidate has a large following and at this writing honors are about even. No money is being wagered on the result of the contest.

At the meeting last night of Yaqui River Consolidated Gold & Copper Company directors Mr. W. H. Smith, manager of I. Burgoon's haberdashery emporium on Morley avenue, was elected secretary, to fill vacancy caused by the resignation of Mr. Edward Lanier. Considerable of other important business was transacted and all the directors present expressed great satisfaction at the manner in which the company was being managed and the splendid showing made at the mines by Superintendent Walter Strickland. A little bay Mexican pony rounded up by Uncle Sam's line riders for being unlawfully in the United States, was auctioned off Wednesday in front of the customs house by Inspector in Charge J. B. Attorney Alexander, who has been here a couple of days taking testimony in the case of the Yaguis ordered extradited yesterday by Judge Williams, is in the city today completing his work. Mr. Langworthy is one of the most competent expert short hand reporters in the west, besides one of the best fellows in the world.

William Reynolds, one of the country's best known practical miners, is now out at Santa Cruz, Sonora, managing the best saloon and play house recently opened up there by William S. Madding and his associates. Bill says business is good and Santa Cruz a fine place to live. At this season of the year a prettier spot than the beautifully shaded old town would be hard to find.

Captain James McIntyre, who spent the past winter in Nogales with his nephews, John and James, has arrived in Chicago safe. The old gentleman writes that Nogales is the best town this side of the windy city. Bully for the Captain, he is the owner of some very valuable Nogales property which he has had many years; he has had confidence in the town's future and has stayed with it.

Mrs. P. J. Munch and Master Phil, spent several days in the city from Empalme, Sonora, where Mr. Munch is agent for the Sonora and Cananea, Yaqui River & Pacific railroads. Whiteside, the "Gentleman from Santa Cruz," filled the position of county recorder in a most creditable manner.

This morning Messrs. Calahan and Cheairs left for Los Angeles, and El Martin returned to Bisbee.

Good news comes from Patagonia that the Calumet & Arizona company will shortly commence active operations on a big scale on the Three R mines owned for many years by Colonel R. R. Richardson, of that place. The property is said to be one of the best in Southern Arizona, and when the big mining company gets busy great things may be expected as a result.

Thursday morning W. G. Bowman, agent at Carbo, Sonora, for the railroad company, went to Tucson to testify in the extradition case Manuel Ramirez, which came up for hearing yesterday. Manuel is a brother of O. and Eduardo Ramirez, the Mexican custom brokers who are charged with defrauding the Mexican government out of a large sum of money by means of false bills of lading of wheat shipments. At the time of the alleged crime, Mr. Bowman was local agent for the Southern Pacific.

A. H. Parker, who for some time past has been ranching and mining near Santa Ana, Sonora, Mexico, was here on business the first of the week, in connection with the mining property twenty-one miles west of Santa Ana owned by the Little Star Mining Company, of which he is a heavy stockholder. A. H. Oane, of Los Angeles, California, is president of the company, which was recently organized. Mr. Parker says his ranch is in fine condition, there being an abundance of water there the year around for all purposes.

This morning Father C. A. Miller of Los Angeles, W. E. Smith of Nogales; Frank Stanley, of Denver, Colorado, and Grover Sommers and D. Evans, of Martinsburg, Ohio, left for an extended prospecting trip to Sonora and other states in Mexico. The party will go to Fuerte, thence into the rich mining districts in search of hidden wealth. They will be absent from the United States about a year, during which time they fully expect to discover a rich bonanza. Mr. Smith's numerous friends here and throughout Santa Cruz county wish him and his party abundant success on their prospecting expedition, which will be under his personal direction.

Wednesday Nogales was visited by two of Sonora's most distinguished citizens, Adolph Bley, president and Max Muller, vice-president of Banco de Sonora, who the evening before arrived from Hermosillo, on their way to the city of Mexico to attend a meeting of the general assembly of the Mexican Bankers Association. While in the city the gentlemen were entertained by Mexican Consul M. Mascareñas, who is largely interested in the big bank of which he was one of the organizers, and Alberto Mascareñas, manager of the local branch of the mammoth banking institution which now has a capital of \$1,500,000. Thursday morning the gentlemen from Hermosillo continued on their way to Mexico.

F. H. Siebold, the grading contractor, who is associated with C. A. McCarty, after a couple of days business visit in the city from the front out beyond Santa Cruz, left for camp yesterday. Mr. Siebold besides being a contractor is an experienced assayer, having for a long time worked at the great Quintera and Zambona mines near Alamos, Sonora. The gentleman is a stockholder in the Zambona Development Company, of which many Nogales people are stockholders. He has a thorough knowledge of the property which he does not hesitate to say is worth many times the capitalization of the Zambona Development Company, which is only \$650,000. Mr. Siebold also verified the report that a very important strike of rich ore had recently been made at the 700 foot level. Mr. W. S. Craniz is now at the mines.

Patt R. Sullivan, all round good fellow and special newspaper correspondent, was in the city yesterday from Patagonia, where he now makes his headquarters, and where he expects to sojourn this summer. Patt says that next week the "Soncita Club," a new boosters organization will be permanently organized in Patagonia, with every prominent citizen of that important, wide awake village enrolled on the membership list. From the start the "Club" will have a membership of about thirty-five, which will in a very short time be increased to fifty. The object of the new organization will be to advertise the Patagonia, Santa Rita, and other mining districts near Patagonia, and every citizen in Santa Cruz county should give the Club unstinted moral and financial support.

Mr. John Cave, manager of the Coast Line Copper Company's El Oro mines down in the Ures district, a short distance from the famous Giroux mines, came up from the south Wednesday evening and continued on to Los Angeles the next morning on business for his company, and incidentally to enjoy a few days Mrs. Cave and the baby. Manager Cave stated that arrangements are being pushed to completion in order that work at El Oro can be prosecuted with greater vigor than in the past, and it is hoped that good results may at once be attained. John Henderson, who for a long time was manager of the company, has not severed his connection as was reported here, but continues as engineer, which position he can fill without neglecting his large personal mining interests in the state of Sonora.

Thursday evening Frank Sparks, the mechanical engineer, who several years ago was in charge of the Nogales Electric Light, Ice and Water Company's local plant, accompanied by Mr. George Vaughn, arrived in the city, from the Lluvia de Oro mines in Sinaloa, where for some time past they have been in the employ of the big mining company, Mr. Sparks as engineer and Mr. Vaughn as transportation agent. After spending a few days in the border city on business and pleasure, the gentlemen will return to Lluvia de Oro, where Messrs. John Maloney and Tom Gittins, of this city worked a long time as millmen. The Lluvia is one of the most wonderful gold producers in the republic of Mexico. It is situated on the line between Sonora and Sinaloa, and is reached either by mule back or flying machines; the former, according to Messrs. Sparks and Vaughn, being the easiest and certainly the safest.

Dr. R. I. Howitt, mining man and capitalist, who has property interests in Sonora, Nogales, Tucson, and Victoria, B. C., after a month spent here and in Sonora, departed Monday for Victoria, where he and his family now make their home. Dr. Howitt expressed himself as greatly pleased with the manner his affairs both here and at Minas Prietas, are being conducted, and if Frank Stevens, of Prietas and Jesus Saldamando, of Nogales, could have heard the many nice things he said about them they sure would feel flattered. When at Minas Prietas Dr. Howitt had the pleasure of taking a ride in the big automobile now in commission between Minas Prietas and the town of Ures. The auto is owned by Messrs. Alex. Hall, John Louis and A. Hale, three prominent, enterprising citizens of the big gold camp, who think they have a bonanza in their automobile which will carry passengers to and from Ures at so many dolies per, making the round trip daily.
